

Scholastic Reading Inventory™

# Scholastic Reading Inventory™

*Wisconsin educators are successfully using computer-based Scholastic Reading Inventory (SRI) to accurately assess reading comprehension and monitor reading progress!*

- SRI uses the Lexile Framework® to match students to books they can read successfully.
- SRI is linked through Lexile® measures to the TerraNova.
- SRI gives educators the opportunity to bridge the gap between the TerraNova and instruction.

## **Scholastic Reading Inventory Promotes Increased Student Achievement!**

SRI motivates students to improve their skills by matching them to appropriate text. Educators can measure reading comprehension throughout the school year to inform instruction.

### **SRI provides outstanding benefits:**

- ❖ Monitors yearly reading progress for individual students, groups, and classes
- ❖ Enables schools to disaggregate student test results by gender, ethnicity, and other subgroups
- ❖ Supports differentiated instruction
- ❖ Research-based and validated
- ❖ Computer-adaptive test self-adjusts in response to students' answers
- ❖ Quick and easy to administer
- ❖ Management system makes it easy to access and use student information
- ❖ Provides individualized reading list for each student, based on interests and measured reading level
- ❖ Fifteen customizable reports provide actionable data
- ❖ Fulfills NCLB parent involvement criteria
- ❖ Lexile Library books available
- ❖ Print version available in English and Spanish

## **Funding Opportunities**
